There is "a meeting of the Censors, in the town of Boston, for the examination of candidates for the practice of medicine, surgery and midwifery, on the Thursday next preceding the annual meeting of the Fellows of the Society; and on the day following the meeting of the Counsellors in October and February annually."

The 6th section of the By-Laws contains the following regulation.

"To promote the laudable design of the Legislature, in forming and incorporating this Society, to discourage empiricism, and to prevent, as far as may be, all unqualified persons from practising medicine or surgery; it shall be deemed disreputable, and shall be unlawful, for any Fellow of this Society, in the capacity of physician or surgeon, to advise or consult with any person, who shall hereafter commence the practice of medicine or surgery in this Commonwealth, unless he shall possess either one, or the other of the following qualifications.

"He shall have been duly examined and approbated by the Censors of the Society, or by those of some district Society; or shall have received a medical degree at Harvard University.

"Or should he have been educated in, or come from, some other state or foreign country, unless he shall have produced to the Censors of the Society, or those for the district, wherein he resides, satisfactory evidence of his qualifications for the practice of medicine or surgery."

"Or unless he shall be a Fellow of the Society, and shall not have been expelled therefrom."

The Convention of the Congregational Ministers in the Commonwealth of Massachusetts

IS a voluntary Association, embracing all the Congregational Clergy of the Commonwealth, but vested with no particular authority or control over the Churches.

Their meeting is holden in Boston, in the afternoon of the last Wednesday in May, or day of Election annually; and the following day at eleven, A.M. after transacting the usual business of the Convention, a sermon is delivered in Public before them, and a collection made for the charitable purpose of relieving the indigent widows of Congregational Clergymen.

Difficulties having often arisen in determining, what widows are the proper objects of the charity of this Convention, it was voted, June 1, 1815,—That a standing Committee of 30 be appointed, 5 of whom shall be

chosen centrally ; and the remainder in different parts of the State. The five shall act as a *Reporting Committee*, to receive from the other members of the Committee applications and statements of facts in behalf of persons who may be subjects of the charity of the Convention, and having considered the same, shall judge of the persons to be relieved, and the proportion to be given to each, and make report to the Convention, on the 1st day of their meeting, annually ; further, that the names of said Committee shall be annually published in the Massachusetts Register.

STANDING COMMITTEE.

Rev. Dr. Kirkland, Rev. Dr. Holmes, Rev. John Pierce, Rev. Charles Lowell, Rev. Joshua Huntington are the *Reporting Committee*.

Accordingly, when the widow of any Congregational Clergyman is considered an object of the charity of the Convention, it is desired, that answers to the following questions be given by one of the Standing Committee *by the first of May* in each year, to be communicated to the Reporting Committee, that they may possess the

documents for making the correct report to the Convention.

1. What is her age.
2. What are the number, the sex, the ages, and the circumstances of her children?
3. What is a fair estimate of her property?
4. What is her ability to help herself?
5. What connexions has she, who are bound to afford her assistance? And in what way do they assist her?
6. What is her income?
7. What peculiar circumstances render her an object of charity; or make it desirable, that she should have aid, this year?

The Rev. Henry Ware, D.D. of Cambridge, is chosen to deliver the next Convention Sermon. In case of failure, Rev. Abiel Holmes, D.D. of Cambridge, will officiate in his stead.

The Convention earnestly recommend to all young gentlemen who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity which learned and judicious advisers shall think necessary to qualify them for public teachers.

Rev. Charles Lowell, of Boston, Treasurer.

Rev. John Pierce, of Brookline, Scribe of the Convention.

The General Association in Massachusetts.

THIS body was organized in June, 1805. In 1814, it consisted of Delegates from 12 Associations in Massachusetts Proper. Its members "admit, as articles of faith, the doctrines of Christianity, as they are generally expressed in the Assembly's Shorter Catechism," and consider these doctrines, which have been generally embraced by the Churches of New-England, as the "*basis of their Union.*" This body wholly disclaims ecclesiastical power or authority over the Churches, or the opinions of individuals. The essential objects, as expressed in their Constitution, are "to promote brotherly intercourse and harmony, and their mutual animation, assistance and usefulness as ministers of Christ; to obtain religious information relative to the state of their particular churches, and of the general state of the Christian Church in this country and throughout the

Christian world; and to co-operate with other similar institutions in the most eligible measures for building up the cause of truth and holiness."

This Association sends Delegates to, and receives Delegates from, the following ecclesiastical bodies, viz. The General Assembly of the Presbyterian Church in the United States. The General Associations of Connecticut and New-Hampshire. And the General Convention of Vermont.

✍ Annual meetings last Wednesday in June.

Rev. ENOCH HALE, of West-Hampton, is the standing Scribe of this Association.

This State is entitled to send two members to the Senate, and one member to the House of Representatives of the United States. Until a new census, it will of course choose three Electors of President and Vice-President. In 1810, the city, suburbs, and precincts of New-Orleans, contained 24,552 inhabitants; of whom 13,728 are whites, and 10,824 are slaves.

INDIANA

Admitted as a State 1816. Seat of government to 1825, is Corydon, on the Ohio river. The population in 1810, was 24,520; and in 1815, about 68,000. The executive power is vested in a Governor chosen for three years; and the legislative power in a Senate chosen for three years; and a house of Representatives chosen for one year. It has two Senators and one Representative in Congress.

MISSISSIPPI.

In 1817, the Mississippi Territory was divided; and the Western part lying on the Mississippi River, and extending from Tennessee to the gulph of Mexico, was erected into a State, by the name of Mississippi. The Eastern part was made a Territory, and called the Alabama. The State of Mississippi has two Senators, and one Representative in Congress. The Governor is elected for two years, the Senate for three, and the House of Representatives for one.

DISTRICT OF COLUMBIA

Is a square with a side of ten miles, and of course contains 100 square miles. It lies on both sides the Potomac, and includes the towns of Washington, Georgetown and Alexandria. It is divided into two counties: the county of Washington on the north side of the Potomac; and the county of Alexandria on the south side. In the former, the laws of Maryland are continued in force; in the latter, those of Virginia. Congress, however, makes what laws it pleases for both.

Washington city is built on the Maryland side of the Potomac, on a point of land between what is called the Eastern branch and the Potomac. Its plan as laid out extends nearly four miles up each of those rivers. The Eastern Branch forms a safe and commodious harbour being sufficiently deep for the largest ships, for about four miles above its mouth, while the channel lies close along the bank adjoining the city, and affords a large and convenient harbour. The capitol is situated on a pleasant eminence, commanding a view of every part of the city, and of a considerable portion of the country around. Such streets as lead immediately to public places are from 130 to 160 feet wide; others from 9

o 110. This city became the permanent seat of the National Government in 1800.

MISSOURI TERRITORY.

This includes all of Louisiana, except the State of Louisiana; that is, all north of thirty-three degrees, North latitude. It probably contains 7 or 800,000 square miles. Population in 1810, was 20,845. St. Louis is the seat of government.

MICHIGAN TERRITORY.

This Territory is divided into four districts, viz,—Erie, Detroit, Huron, and Michilimakinak. Its greatest length from South-east to North-west, is 500 miles; from North-east to South-west it is 300. The number of square miles, both of land and water, is estimated at 50,000. The legislative power is vested in a Governor and a Supreme Court, composed of three Judges, all appointed by the President of the United States. The executive power is vested in the Governor, and the judicial in the three Judges, and such civil magistrates in the various districts as the Governor shall appoint.

ILLINOIS TERRITORY.

This is the western half of what was formerly called the Territory N. W. of the Ohio, and embraces the whole of it, except what is included in the State of Ohio, and the Territories of Michigan and Indiana. The whole tract contains about 200,000 square miles. It was a part of the Indiana Territory till 1809, when it was erected into a separate government. Population in 1810, was 12,282 inhabitants.

ALABAMA TERRITORY.

This is the Eastern part of the former Mississippi Territory, and is bounded North by Tennessee, East by Georgia, South by Florida and the Gulf of Mexico, and West by the State of Mississippi. The population of this Territory and the State of Mississippi in 1816, was about 76,000; of which 30,000 were slaves. In 1810, the whole number was 40,000, of which 17,000 were slaves.

The Territory originally included in Louisiana, was estimated to contain nearly a million of square miles; as large an extent of country as the whole of the residue of the United States. In 1810, it contained 97,401 inhabitants.

UNIVERSITY AT CAMBRIDGE, OR HARVARD COLLEGE.

The General Court of the Colony of Massachusetts Bay, in Sept. 1636, appropriated £ 400 for a School or College within the Government; and appointed and named six Magistrates, and six Elders to order the College. In 1637, they voted that the College should be erected at Newtown. In the year following, they changed the name of Newtown to Cambridge, and in March, 1638—9 enacted that the College to be built at Cambridge, should be called Harvard College, in honour of the Rev. John Harvard, who had bequeathed to it £779:17:2, with his library. In the year 1642, the General Court established the Board of Overseers, to consist of the Governor, Deputy-Governor, for the time being, all the Magistrates of the jurisdiction, with the teaching Elders of the six next adjoining towns; who were invested with power to make statutes and laws for the government of the College, and to dispose and manage its funds.

In May, 1650, the Charter of the Corporation was granted; said Corporation to consist of a President, five Fellows and a Treasurer, styled the President and Fellows of Harvard College. By this Charter, the Corporation procuring the presence of the Overseers, and by their counsel and consent, have power to fill vacancies in their own body. They are authorized to receive and hold real estate, not exceeding the value of £ 500 pr.ann. and any goods and sums of money whatsoever; and to make conclusive bargains for lands and tenements, &c. They are to choose and remove officers, and make orders and by-laws for the carrying on the work of the College; provided the said orders be allowed by the Overseers. By an act of the Court in 1657, called an Appendix to the Charter, the acts of the President and Fellows have immediate force and effect; they being responsible for the same to the Overseers. The Constitution of the Commonwealth recognizes and confirms the powers of the Corporation and Overseers of Harvard College or the University in Cambridge, pointing out the successors to the former Overseers, and reserving to the Legislature of the State such control over the government of the College, as was possessed by the Legislature of the late Province. By an act of the Legislature in 1814—the Corporation may hold real estate to the value of 10,000 dollars per annum.

Summary of the Method of Treatment to be used with Persons apparently dead from Drowning, &c.

THE RESUSCITATIVE PROCESS, recommended by the Humane Society.

CONVEY the person to the nearest convenient house with his head raised; strip and dry him as quick as possible: clean the mouth and nostrils from froth and mud. If a child, let him be placed between two persons naked, in a hot bed. If an adult, lay him on a hot blanket or bed, and in cold weather, near a fire; in warm weather the air should be freely admitted into the room. The body is next to be gently rubbed with warm woollen cloths, sprinkled with spirits, if at hand, otherwise dry. A heated warming-pan may be now lightly moved over the back, properly covered with a blanket; and the body, if of a child, is to be gently shook every few minutes. Whilst these means are using, let a cyllier of warm water, with as much common salt as it will dissolve, be thrown into the bowels. Bathe the breast with hot rum; and persist in the use of these means for several hours. If no signs of life should then appear, let the body be kept warm several hours longer, with hot bricks, or vessels of hot water, applied to the palms of the hands and soles of the feet; and

this for a longer or shorter time, as the circumstances of the case may dictate.

The too customary method of rolling on a barrel, suspending by the feet, and every violent mode of agitation, particularly in removing the body from the water, should be most carefully avoided.

To restore breathing, introduce the pipe of a bellows (when no apparatus is at hand) into one of the nostrils, the other and mouth being closed; *inflate the lungs*, until the breast is a little raised; mouth and nostrils must then be let free. Repeat this process until life appear.

Electricity is recommended to be early employed by judicious practitioners.

General Observations.—*Resuscitation.*

On the *dawn* or first indication of returning life, the prudent practitioner will resign the office of *Art* to *Nature*. It is evident that *Art* has contributed her share, by enabling *Nature* to struggle with the immediate cause of oppression. It is in fact this judicious blending of *Nature* with *Art* that gives to the latter all its efficacy.

On signs of returning life.

A tea-spoonful of warm water may be given; and if swallowing be returned, warm wine or diluted brandy. The patients must be laid in a warm bed, and if disposed to sleep, they will generally awake perfectly restored.

The plans above recommended are to be used three or four hours. It is an absurd and vulgar opinion, to suppose persons irrecoverable, because life does not soon make its appearance.

⚡ Bleeding never to be employed, unless by the direction of a physician.

THE GENERAL REGISTRY OFFICE

Is an establishment important to strangers as well as citizens. It is of recent date, and the only one of the kind ever formed in New-England. It is an Office through which any kind of estate or property, such as houses and tenements of any sort; farms, tracts of land, ships, exchange, and property of almost any description, may be bought, sold, let, hired or exchanged; an Office through which strangers and foreigners can obtain such advice and information, houses or lodgings, and assistants, as may be wanted; where also the stranger, on arriving in town, can leave his name and place, where to be found, that in case any thing unforeseen should befall his family, or property, after leaving his home, which might require his immediate attention, he could with certainty and readiness be informed of it; and where, likewise, are drawn Deeds, Leases, Wills, Agreements, Petitions, Charterparties, and all other Writings, which may be desired.—It is at No. 2, Water Street, near Cornhill, Boston,—and is conducted by S. P. Heywood.

By the Report of a Committee, dated October, 1817, on the state of Schools in Boston, made by the authority of the town, it appears, that there are one hundred sixty-two private schools, of various descriptions, in which 4132 children attend, who are between the age of 4 and 14 years. The annual expense of these private schools is 49,154 dollars. Of this sum, the expense of the schools for children between the age of 4 and 7, is 18,911 dollars. Two hundred eighty-three children, between 4 and 7 years of age, do not attend any school. Two hundred forty-three children, above 7 years of age, do not attend any school. In the schools maintained at the public expense, 2365 children are instructed—1579 boys, 786 girls.

Mr. Patterson, Director of the Mint, reported to the President in January, 1817, that in 1816, there were coined 2,888,134 cents, 47,150 Half Dollars, and 20,003 Dollars.—Total, 56,785 dollars, 57 cents.

 THE Publishers of the REGISTER gratefully acknowledge their obligations to their correspondents in different counties. They regret that in some instances their communications were not received in season to apply alterations in the proper place. This difficulty however, is partially obviated by corrections in the Appendix. It is respectfully solicited, that communications for 1819 be forwarded as early in September next as possible, or before that time. That some error should occur in such a publication will not be surprising to any one, who notices the extensive lists of names which it contains, and the vicissitudes to which each individual is constantly liable.
